CeramicWise

Advance Ceramic Technology (ACT) produces the ultimate in coating performance. ACT coatings produce tough durable films with superior stain resistance in any sheen. Finger prints, soil, grease and many other stains wash off easily with mild soap and water. Our ACT finishes outperform the leading national competitors. Our ACT product line is available in a wide variety of sheens.

CeramicWise

Advanced Ceramic Technology

CeramicWise is engineered with 100% acrylic resin and ceramic microspheres to create the ultimate in coating performance. Advanced Ceramic Technology coatings produce tough durable films with superior stain resistance in any sheen. Fingers prints, soil, grease, and many other stains wash off easily with mild soap and water without harming the film. Our ACT finishes outperform the leading national competitors.

CeramicWise Interior Matte finish creates an elegant appearance that wears like iron. CeramicWise Satin finish provides a durable interior/exterior enamel finish that can be used on interior walls, doors and trim and on exterior metal and masonry surfaces. It resists spatter, levels beautifully and has very good hide. Available in a wide variety of sheens and provides a beautiful finish in any color!
